Expressive Drawing . . . from non-objective expressive play to reality

Cuyahoga Valley Art Center April 13-14, 2019 9:30-4:30

This workshop will help to open up your drawings and paintings by allowing more artistic expression to come into play. While there will be a major focus on shape, we will utilize design elements and principles to strengthen the work. Goals include: accuracy in draftsmanship; utilizing value to its best advantage and to understand movement around the composition.

We will be working exclusively in black and white

*As our focus will be on shapes, please consider shape as you select your reference photos.

The supply list is just a suggestion....please do not go out of your way to buy new materials....any of them will do
